

DNA Test Report

*Animal Molecular Genetics Laboratory
University of Missouri
College of Veterinary Medicine*

Owner Information

Owner: Elisabeth Gardner
Address: 1878 South SB Ranch Rd
City-St-Zip: Sierra Vista, AZ 85635

Dog Information

Call Name: Prince Charles *Breed:* English Springer Spaniel
Registered Name: X-Factor vom Springer Clan
Reg Number: SR55407201
Sex: male *Birthdate:* 11/16/2008

AMGL Case #: 65309 *DNA Source:* FTA-swab

Testing Date: 5/7/2009

Test Run: PRA-Progressive Retinal Atrophy *Result:* Normal

Explanation of results:

NORMAL: This dog has tested normal (or clear) for the mutation causing the cone-rod form of PRA prevalent in this breed. It can only transmit a normal gene to offspring, and can be bred to a dog with any test result without producing affected offspring.

CARRIER: This dog has tested as a carrier for the mutation causing the cone-rod form of PRA prevalent in this breed. It is very unlikely to develop this form of PRA, but it may transmit either a normal gene or an affected gene to offspring.

AFFECTED: This dog has tested as affected for the mutation causing the cone-rod form of PRA prevalent in this breed. It is at risk for developing clinical symptoms of PRA at some point in its lifetime. We do not presently have a way to predict when symptoms may appear.
